MTGH₂O Shower Enclosures

MTGH₂O - More Than Glass and Water can create a beautiful shower enclosure that will enhance your bathroom. MTGH₂O uses 3/8" and 1/2" glass with the least amount of visible hardware. All hardware is of the highest quality from some of the finest hardware suppliers around the world. Each panel is cut to exacting tolerances in order to keep all caulk and hardware to a minimum. We offer the standard finish hardware or we can custom match numerous amount of finishes as well. With most projects being made to order, the opportunity for creative Expression is virtually limitless.

The MTGH₂O is available in 3/8" or 1/2" glass thicknesses. Other options include Starfire glass which is ultra clear, meaning there is no green tint in the glass. Another available option is ShowerGuard® glass which has a coating on one side of the glass keeping maintenance to a minimum. To insure the utmost in safety, all glass is tempered safety glass meeting all ANSI and consumer product safety commission specifications.
